***Election/Restrictions***

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

the species of Figs. 1-14.

the species of Fig. 15.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Figs. 1-14 - claims 1-10.

Fig. 15 - claims 11-15

The following claim(s) are generic: None.

Art Unit: 2871

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The LCD apparatus of claim 1 has one LCD panel while the LCD apparatus of claim 11 has two LCD panels. The light supplying of the LCD apparatus of claim 1 has *no* light guide plate while the light supplying of the LCD apparatus of claim 11 has one light guide plate with first and second light-exiting surfaces. The light supplying unit of claim 11 has the first light-exiting surface facing a light reflective-transmissive film and the second light-exiting surface facing the second LCD panel.
